

I am a K-Love listener who benefits very much from the wholesome and encouraging music played on that station. It is the only station I listen to, and would not choose any other station. If K-Love was replaced by a LPFM, the whole community of listeners would suffer the loss of a positive influence on their lives and the lives of their children, especially the teenagers. K-Love provides a much needed community service in it's God-centered music and positive commentary, as well as it's various service ministries and outreach. It is in the public interest of this community to continue to have K-Love broadcast just as it is, bringing hope and help to people in need, who have turned their lives around by hearing just the right song at the right time. Please do not displace K-Love in this area with a LPFM of any kind. Thank You, Yvonne Notch
